**MATURITY PERIOD : BIGTOP® - 5 days**

### AGRONOMY

**Habit :** Semi-upright  
**Vigor :** Weak  
**Productivity :** High

### FLOWERING

**Flowering period :** Early  
**Floribondity :** Medium to high  
**Thinning level :** Medium to low

### FRUIT

**Caliber :** 2A/3A  
**Stone :** Clingstone  
**Firmness - storability :** Very high  
**Shape :** Round  
**Colour intensity :** High  
**Eating qualities :** Sweet flavor.

### RESISTANCES

No particular sensitivity or resistance observed on this variety.

### TECHNICAL ADVICE

Well load the tree to limit fruit size and avoid the apparition of split stone. Prune on all non-weaked one-year wood.
